Exclusive SERIES

With the Exclusive collection, **Aldekon** embraces the philosophy of minimalism, where each of our designs is meant to be enjoyed, touched, used and seen for years.

Basic geometric forms, elements stripped down to their bare essentials, simplistic materials and repetition of structures that awaken a sense of order and propriety combine to bring to life sheer usability and experience, minus the unnecessary frills.

This is true to the essence of minimalism, that is, the art of being able to conveniently and aesthetically live with less-therefore, while our designs are minimal, they in no way exclude the essential functionality of each piece, providing a clear balance between functionality, comfort and aesthetic purity.

THE FUTURE IS FLUID

The movement water is constant and infinite, and this collection expresses the perpetual, mesmerizing and continuous flow of liquid. This fluidity extends to the functionality of our pieces, where legs can be fitted at different angles to adapt to space constraints. Free of rough edges and unnecessary fits, the legs fit perfectly into tight corners, against walls, and within nooks and crannies, freeing workspaces of clutter and obstruction.

We studied how people work and identified new ways the work environment could better support the different ways they work. These insights provided both the inspiration and foundation, making it an industry leader in addressing the changing work-space requirements in today's private and open-plan office environments. Renova supports the needs of the individual, without sacrificing functionality and aesthetics.
